Objective

Dedicated and results-driven Backend Developer with a proven track record in Java and Spring Boot. Seeking a challenging role to leverage my technical expertise and contribute to innovative full-stack solutions. Eager to learn and grow within a dynamic development team.

Experience

Infosys Limited | Digital Specialist Engineer

📅 2021 – Present

Project: Forecasting, Ordering, Planning & Logistics System

Technologies: Java (Spring Boot), DB2, Camunda, REST APIs, Batch Jobs, Excel Integration

- Re-engineered and developed a core enterprise system for forecasting, ordering, planning, and logistics as part of a cross-functional team.
- Led backend development efforts including **REST API design**, **asynchronous batch processing**, and **Excel data integrations**.
- Collaborated on **requirement gathering**, **low-level design**, and **database schema design**, ensuring alignment with business goals.
- Created process workflows using **Camunda**, aiding in low-level design and re-engineering.
- Contributed to a **customer-centric solution**, translating business requirements into scalable and reliable backend components.

Project: Struts Migration & Authorization Module

Technologies: Java, Struts (1 to 2+), JSP, Tiles, XML Configuration

- Involved in the migration of a legacy application from **Struts 1 to Struts 2+**
- Implemented **role-based authorization module** and **custom Tiles Configuration**.
- Continuously learning and applying **Struts architecture principles** to improve solution design.

Skills & abilities

Languages : Proficient in Java and competent in Python.

Frameworks : Spring Boot, Spring Data JPA, Spring Rest, Spring Microservices.

Web : HTML, CSS, JavaScript.

DBMS : Proficient in MySQL, DB2.

Tools : GIT, Postman, Jira, STS, Swagger, Camunda.

Awards & Accomplishments

- **Platinum Club Member – FY26 (Infosys)**
Selected for Infosys' **exclusive Platinum Club** for exceptional performance, technical excellence
- **Technical Maestro Award – UNIT Level**
Recognized at the unit level for excellence in technical skills and consistently delivering high-quality solutions.
- **Team-Level Awards (x2)**
Awarded for significant contributions to team success and for designing and developing a bot using **AssistEdge** to automate IBM WebSphere application deployment, reducing manual effort by **90%**.
- **Outstanding Performance Ratings (3 Years)**
Consistently received top performance ratings in all annual appraisals from 2021 to present.
